**Advanced
Tracker
Technologies Inc.**

Improving the way you manage your workforce

Labor Tracker is a full featured, labor planning and costing technology including automated labor time calculations, direct & indirect labor tracking, machine usage tracking, WIP management, and work order scheduling. These features are completely modular allowing you to pick and choose according to your requirements and budget.

This booklet provides you with an overview of the Labor Tracker product line with screen shots and report samples.

I invite you to call us toll free at 1-888-531-3774 and we will answer any questions you may have and/or please visit us at www.advancedtracker.com.

A Few Things That Make Labor Tracker Easy To Use

Daily Procedure Buttons

Common steps can be established as shortcut buttons

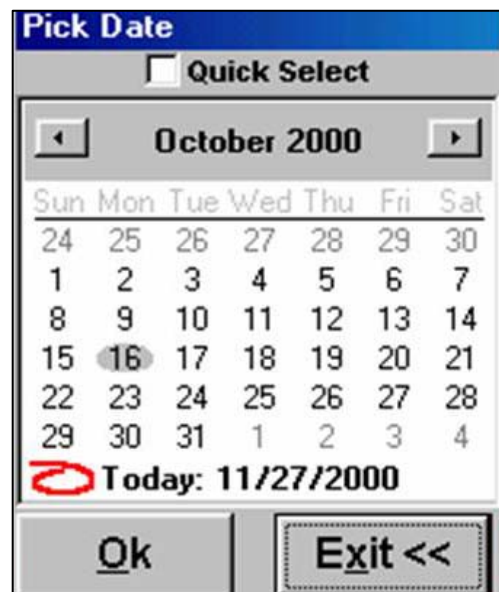

Date Management

Double click any date field to automatically fill it with the current system date

Arrow up/down – change the day

Page up/down – change the month

Click the date button to display the quick select calendar

A Few Things That Make Labor Tracker Easy To Use

Record Specification Filters

Click this button to display the specification bucket form to select records by work order, customer, item, contact, start date, due date, and close date

Sort Jobs by work order, due date, priority #, or customer
